

4. Investment Option selection (Check A or B - continued on next page.)

- Before choosing your Investment Options, see the CollegeAdvantage Direct 529 Savings Plan *Offering Statement and Participation Agreement* (available at www.CollegeAdvantage.com) for complete information about the Investment Options offered. You must allocate at least **1%** of your contributions to each Investment Option you choose. Use whole percentages only.

A. I want to keep the same investment allocation (s) for my new Beneficiary.

Note: If you are invested in an Age-Based Option(s) and the new Beneficiary is in a different age bracket than the former Beneficiary, your asset allocation may change.

If you wish to **keep the same investment allocations** and you have a **Fifth Third Certificate of Deposit**, please indicate the CD maturity below. Any CDs must be closed and re-opened under the new Beneficiary name. Please select one of the options below:

1. Keep the same **TERM** of the original CD. Example: If the original CD Term was 12 months with 3 months left, you will purchase a 12-month Term CD.

Note: See the CollegeAdvantage Direct 529 Savings Plan *Offering Statement and Participation Agreement* (available at www.CollegeAdvantage.com) for complete information on the Investment Options you are considering.

2. Keep the same **approximate MATURITY DATE** of the original CD. Example: If the original CD Term was 12 months with 3 months left, you will purchase a 3-month Term CD.

Note: When CD term changes, the associated APY changes as well.

(see next page for item 4B.)

B. I want to select new investment allocations or purchase a new Certificate of Deposit.

1. Investment Portfolios

- You must allocate at least **1%** of your contributions to each Investment Option that you choose. Use whole percentages only.
- Your investment percentages must total **100%**.
- The assets will remain in the portfolio you select until you exchange them into a new Investment Option.

Vanguard Ohio Target Enrollment Portfolios

(Your investment mix automatically becomes more conservative as the beneficiary nears the target enrollment year.)

Year of Enrollment Date Portfolios

The asset allocation of money invested in the Year of Enrollment Date Portfolios is automatically adjusted over time to become more conservative as the Beneficiary approaches enrollment. Your assets will be automatically invested in the Year of Enrollment Date Portfolio that matches your Beneficiary's date of birth.
